The Long Beach Community Database was developed as a community service by ReThinking Greater Long Beach to provide a publicly available common set of statistical information about Long Beach, California, for those interested in making Long Beach a better place for all residents to live and work.

The primary purposes of this database are to provide:

- Members of the community with a standard set of information about the City of Long Beach.
- Information needed to insure that public and private community services can be focused on areas where they have the potential of doing the greatest good.
- Information that can be used in carrying out program evaluation of various community programs and activities.
- Decision makers with detailed information upon which decisions can be made to improve the quality of life of the Greater Long Beach area.
- Information needed for the preparation of grant applications and proposals.
- Data for researchers interested in studying the City of Long Beach.

Long Beach Community Database

Welcome to the Long Beach Community Database website. This database was developed by ReThinking Greater Long Beach to provide:

- Members of the community with a standard set of information about the City of Long Beach, California.
- Information needed to ensure that public and private community services can be focused on areas where they have the potential of doing the greatest good.
- Information that can be used in carrying out program evaluations of various community programs and activities.
- Decision makers with detailed information upon which decisions can be made to improve the quality of life of the Greater Long Beach area.
- Information needed for the preparation of grant applications and proposals.
- Data for researchers interested in studying the City of Long Beach.

ReThinking Greater Long Beach would like to thank the following for making this website possible:

- Long Beach Community Foundation
- Josephine S. Gumbiner Foundation
- Long Beach Community Action Partnership
- Claremont Graduate University
  - School of Educational Studies
  - Office of Information Technology
- Long Beach Police Department
- Long Beach Department of Health and Human Services
- Long Beach Unified School District

The following User’s Guide is intended to provide users with a brief reference manual for using the website to obtain the information they need.

Dataset Selection

From the Home page of the website (shown on the front cover), click on either the “Long Beach Community Database” button at the bottom of the page or the “New Data Set” button on the main menu. This will present the dataset selection web page as shown on the following page.

Primary Dataset

The first question that needs to be answered relates to the primary dataset to be used for the analysis. The web page shown on the following page presents the five options available:

- **U.S. Census** – The Census of the Population data for 2000 and 2010 as it relates to Long Beach, California, and the Long Beach Unified School District. Note that the amount of data available is limited for the 2010 Census because the U.S. Bureau of the Census dropped the “long form” in 2010 and replaced it with the American Community Survey.
- **American Community Survey** – The five-year American Community Survey for Long Beach, California, and the Long Beach Unified School District.
- **Public Education** – Enrollment, student performance, high school graduation, and certified staffing for the Long Beach Unified School District.
- **Public Safety** – Reported criminal incidents, victims, and arrestees for all Part I Violent, Part I Property, and Selected Part II crimes reported to the Long Beach Police Department.
- **Public Health** – Body Mass Index for 5th, 7th, and 9th grade students in the Long Beach Unified School District and 3 and 4-year-old BMI for families enrolled in the Women, Infants, and Children (WIC) Program and Life Expectancy and Cause of Death data for the City of Long Beach and the California Environmental Screen.
Secondary Dataset

Once a primary dataset has been selected, a sub-data set will be listed in the “Which Subset would you like to use?” section. The following are the subsets currently available for each of the primary datasets. For a complete list of tables/information available for each of the sub-datasets, refer to the “List of Tables” and the end of this manual.

U.S. Census – 2000 and 2010 Census of the Population

- **Gender Age & Ethnicity**: Information relating to the age, gender, and ethnicity of the population based on the 2000 and 2010 U.S. Census.
- **Households & Families**: Information relating to household and family types based on the 2000 and 2010 U.S. Census.
- **Housing**: Information on type and size of households based on the 2000 and 2010 U.S. Census.
- **Economics 2000**: Information on income, poverty, and employment based on the 2000 U.S. Census. These data were not collected in the 2010 U.S. Census but are available in the American Community Survey Dataset.
- **Education 2000**: Information on school enrollment and adult education attainment based on the 2000 U.S. Census. These data were not collected in the 2010 U.S. Census but are available in the American Community Survey Dataset.
- **Immigration 2000**: Information on immigration and language fluency based on the 2000 U.S. Census. These data were not collected in the 2010 U.S. Census but are available in the American Community Survey Dataset.

Am. Community Survey - 2012 5-Year

- **Population Characteristics**: Information relating to age, gender, and ethnicity.
- **Households & Families**: Information relating to household types, family types, births during the past 12 months, and grandparents living in family households.
- **Households and Poverty**: Poverty information relating to households and families.
- **Households and Other Var.**: Other information relating to households and families such as nativity, language fluency, employment, income, etc.
- **Poverty**: Information on poverty and public assistance.
- **Education**: Information relating to school enrollment and adult educational attainment.
- **Housing**: Information on type of housing unit, the size of households, and the cost of housing.
- **Nativity and Lang. Fluency**: Information relating to place of birth, U.S. citizenship, and English language fluency.
- **Employment**: Information relating to labor force participation and employment.
- **Income**: Information relating to income levels.
- **Disabilities**: Information relating to individuals with physical disabilities.
- **Veterans**: Information on U.S. military veterans.
Public Education - 1999-00 to 2013-14

• **Student Enrollment**: Student enrollment by gender, ethnicity, language fluency, socio-economic status, special education, and parental education for areas of Long Beach and individual schools.

• **Cal Standards Test**: The percentage of students performing at the Advanced or Proficient (grade level or above) level on the California Standards Test (CST) by gender, ethnicity, language fluency, socio-economic status, special education, and parental education for areas of Long Beach and individual schools. These data are available for each individual test and the combined mathematics, science, and social science tests. Note: the California Standards Test was discontinued at the end of the 2012-13 academic year.

• **Cal. H.S. Exit Exam**: The percentage of students passing the California High School Exit Exam (CAHSEE) by gender, ethnicity, language fluency, social-economic status, and special education for areas of Long Beach and individual High Schools.

• **H.S Graduation & Dropout**: High School graduation rates including a-g completion rates (college preparation course requirements) and high school dropout rates for areas of Long Beach and individual High Schools. Graduation and dropout data are provided in two forms: 1) The graduation and dropout rate among the cohort of students across the four years of high school and 2) The actual number/percentage of students graduating or dropping out.

• **Expulsions & Suspensions**: Number and rate of expulsions, in-school suspensions, and out-of-school suspensions for the Long Beach Unified School District. Individual school are not included due to a high percentage of missing data at the school level.

• **Truancy**: Number of students truant during the academic year.

• **School API**: Annual Performance Index for individual schools and selected demographic groups of students (ethnicity, socio-economic disadvantaged, language fluency, and special education).

• **Certified Staffing**: Certified staffing (administrators, pupil services, and teachers) by education, experience, gender, and ethnicity for areas of Long Beach or individual schools. Note, certified staff data for individuals schools, and thus geographic areas, is not available after the 2011-12 academic year.

Public Safety 2010 to 2013

• **Crime**: Crime rates, victimization rates, and arrests rates for all Part I Violent crimes (murder, rape, robbery, and assault), Part I Property crimes (burglary, theft, grand theft auto, and arson), and selected Part II crimes (battery, forgery fraud & embezzlement, vandalism, weapons, prostitution, other sex crimes, narcotics, and crimes against family and children) reported to the Long Beach Police Department.
Public Health

- **Youth Body Mass Index**: Body mass index data for 5th, 7th, and 9th grade students enrolled in Long Beach based on ethnicity and gender for areas of Long Beach and individual schools.
- **Body Mass WIC**: Body mass index data for 3 and 4 year olds of mothers enrolled in the federal Women, Infants, and Children (WIC) program. WIC enrollment is based on low socio-economic status.
- **Life Expectancy**: Life expectancy at age 1 based on ethnicity and gender.
- **Cause of Death**: Causes of death based on ethnicity, gender, and age.
- **Cal. Environmental Screen**: The California Environmental screening index

Geographic Areas

The final question on the dataset selection web page relates to the geographic break downs for the city of Long Beach available to the user. For each of the Geographic Area options a map of the corresponding areas will be presented to the right. Depending on the data available for individual sub-datasets you are able to choose among one or more the following:

- **City of Long Beach** – All of Long Beach, California.
- **Long Beach Geographic Areas** – Nine major geographic areas of Long Beach defined by ReThinking Greater Long Beach.
- **Long Beach Neighborhoods** – Twenty-nine individual Long Beach Neighborhood areas defined by ReThinking Greater Long Beach.
- **U.S.P.S 5-Digit ZIP Codes** – The eleven primary ZIP codes assigned to the City of Long Beach.
- **L.B. Police Dept. Patrol Districts** – The three patrol divisions of the Long Beach Police Department.
- **Building Healthy Communities** – The areas making up the California Endowment’s “Building Healthy Communities” project.
- **Long Beach Social-Economic Index** – An index of U.S. Census tracts classified into five groups, with each group representing 20% of the census tracts in Long Beach based on the socioeconomic characteristics within each tract. The 5-Year American Community Survey variables used to define these groups were:
  - Percent of the population living below the U.S. poverty line.
  - Percent of the population classified as nonwhite.
  - Percent of the population foreign born.
  - Percent of the foreign born population that have not become U.S. Citizens.
  - Percent of the foreign born population who speak English less than “Very Well.”
  - Percent of the adult population with less than a High School education.
  - Percent of the adult population in the civilian labor force unemployed.
  - Percent of families with children that are not married.
  - Percent of the population with physical disabilities.
  - Percent of housing units which are renter occupied.
  - Percent of housing units with more than 1.5 persons per room.
  - Percent of households where total housing costs are more than 35% of household income.
• **Long Beach Women and Children Index** – An index similar to the Social-Economic Index but focusing specifically on the social-economic status of women and children within Long Beach. The American Community Survey variables used to define the five groups were:
  • Percent of the female population living below the U.S. poverty line.
  • Percent of the population under the age of 18 living below the U.S. poverty line.
  • Percent of the female population classified as nonwhite.
  • Percent of the foreign born female population.
  • Percent of the foreign born female population that have not become U.S. Citizens.
  • Percent of the foreign born female population who speak English less than “Very Well.”
  • Percent of the adult female population with less than a High School education.
  • Percent of the adult female population in the civilian labor force unemployed.
  • Percent of families with children where the householder is female and no husband is present.
  • Percent of the female population with physical disabilities.
  • Percent of the population under the age of 18 with physical disabilities.
  • Percent of family housing units occupied where the householder is female and no husband is present which are renter occupied.

• **Long Beach Unified School District** – All of Long Beach Unified School District (LBUSD) which includes all of Long Beach, Catalina Island, Signal Hill, and the southern part of Lakewood.

• **LBUSD Geographic Areas** – The nine areas used for all of Long Beach plus Signal Hill and south Lakewood.

• **High School Boundaries (app)** – The approximate boundaries for the six main high schools in LBUSD (Jordan, Cabrillo, Polytechnic, Wilson, Millikan, and Lakewood High School) based on census tracts. These boundaries differ from the actual geographic boundaries for the service area of each high school because the actual boundaries do not exactly match the U.S. Census tract boundaries.

• **LBUSD Social-Economic Index** – The classification of all census tracts in the Long Beach Unified School District into five groups using the same method discussed above under Long Beach Social-Economic Index.

• **LBUSD Women and Children Index** - The classification of all census tracts in the Long Beach Unified School District into five groups using the same method discussed above under Long Beach Women and Children Index.

• **Comparative Population** – For the U.S. Census and American Community Surveys this includes information for the cities of Long Beach, Lakewood, and Signal Hill, and on all of the U.S.A., the State of California, and the County of Los Angeles

• **Comparative Education** – For the Public Education dataset this includes information on all of the State of California, the County of Los Angeles, and a set of comparative school districts (Oakland, Fresno, Sacramento City, Elk Grove, San Bernardino City, and San Diego Unified School Districts).

• **Comparative Pollution** – For the California Environment Screening Index comparative data are presented for the State of California and the County of Los Angeles.

**Output Tables**

After making the above selections for the Dataset and Geographic area of interest, clicking on the “Build Tables” button will present the data table web page (see example on the next page). A
complete listing of the tables available for each data set can be found in the “List of Tables” at the end of this manual. In addition, a Glossary of the terms and abbreviations used in the various tables can be found in the Glossary of Terms at the end of this manual.

The following is an example of what you would see if you selected “American Community Survey,” “Households & Families,” and “Long Beach Geographic Areas:”

The top part of the data table screen presents a number of options used in defining the specific table or chart to be displayed.

Tables or Tests

For each dataset selected there can be a number of different tables available. A complete listing of the tables available for each data set is presented at the end of this manual. By clicking on the down arrow on the Table dropdown menu of the Table option a listing of the all available tables will be presented. Clicking on the individual table name will present the selected table.

Columns

The second option relates to the column definitions for the table. Depending on the dataset selected the options available are:

- **Geographic Area**: The geographic areas selected. In the above case Planning Districts.
- **Years**: The columns based on individual years.
- **Ethnicity**: Columns based on ethnicity.
- **Grades**: Columns based on individual grades.
- **Grade Spans**: Columns based on Grade Spans – K-5, 6-8, and 9-12.
Output

The third option relates to the type of information to be presented in the tables. Again, depending on the dataset selected the following options are available depending on the type of information to be presented in the table:

Percentage

- **Column Percentages**: Percentages based on the column values.
- **Row Percentages**: Percentages based on row totals.
- **Number**: The actual number of cases in each cell.

Averages

- **Average or Percentage**: Average values or percentages based on the column values.
- **Number**: The actual number of cases in each cell.

For Poverty Data in the American Community Survey:

- **Percentages Below Poverty**: Percentages below poverty line.
- **Row Percentages**: Percentages below poverty line based on row totals.
- **Number Below Poverty**: The actual number below poverty line.
- **Number Above Poverty**: The actual number at or above poverty line.

For the Public Safety Crime dataset the options are:

- **Rate per 10,000**: The crime, victimization, or arrest rate per 10,000 population.
- **Rate per 50,000**: The crime, victimization, or arrest rate per 50,000 population.
- **Number**: The actual number of crimes, victims, or arrestees.

For the California Standards and CAHSEE datasets the options are:

- **% Advanced or Proficient** or **% Passed**: The percentage of students performing at the Advanced or Proficient Level on the California Standards Test or passed the CAHSEE test.
- **Number Advanced or Proficient** or **Number Passed**: The number of students performing at the Advanced or Proficient Level on the California Standards Test or passed the CAHSEE test.
- **Number Tested**: The number of students tested.

Geographic Area

If a column option other than the Geographic Area for Columns is selected, then this dropdown menu will list all individual geographic areas that can be selected for the table. Note: Only one geographic area is presented for each table.

Year

If a column option other than Year is selected, this dropdown menu lists all individual years available to be shown in the table.
Ethnicity
If data are available for individual ethnic groups and the Ethnicity option is not selected as the Columns option then this dropdown menu allows you to select the ethnic groups to be used in the table.

Grades
If data are available for individual grades and the Grades option is not selected as the Columns option then this dropdown menu allows you to select the individual grades to be used in the table.

Gender & Ethnicity
If data are available for to view the combination of Gender and Ethnicity (e.g. African American Females) then this dropdown menu allows you to select the a combination of gender classifications and ethnic groups to be used in the table.

Gender & Age
If data are available for to view the combination of Gender and Age (e.g. Males Under 18) then this dropdown menu allows you to select the a combination of gender classifications and age classifications to be used in the table.

School
If one of the Education datasets are being used, this dropdown menu allows you to select an individual school from within the Long Beach Unified School District.

Row to Chart
Where charts are available, this option allows for a selection of the specific row or rows in the table to be presented as a chart.

Printing & Saving Tables
To print a statistical table, use the print option of the browser being used.

To save a statistical table or chart and load it into another program such as Microsoft Excel, you have two options.

1. Select the whole Web page by pressing Ctrl A, then copy the page (Ctrl C) and paste it into your spreadsheet (Ctrl V). This is the recommended method.
2. Save the Web page as an html file using the browser’s Save option and load the page into a spreadsheet such as Excel®.
Glossary of Terms

1-2 Yr. Teaching - Employees who are in their first or second year of teaching.

12th Grade Grad. Rate - Percentage of high school seniors graduating at the end of their senior year.

1st Yr. Dist. - Persons who have been employed by the LBUSD for less than 1 year.

4 Yr. Derived Dropout - Estimated four year dropout rate based on the dropout rate for each year of high school. \(1-(1-\text{9th Grade Dropout Rate}) \cdot (1-\text{10th Grade Dropout Rate}) \cdot (1-\text{11th Grade Dropout Rate}) \cdot (1-\text{12th Grade Dropout Rate})\)

Administrators - Administrative employees who hold certified teaching credentials (Principal, Assistant Principal, etc.).

Adult - Individuals 18 years of age or older.

Adult Education - Students enrolled in Adult Education Programs.

African Am. - Non-Latino individuals classified as African American.

a-g Requirements - Minimum high school course requirements needed for a student to be able to apply for admission at a University of California (UC) or California State University (CSU) four-year institution.

Against Family/Child - Crimes that involve family members as perpetrators and victims (i.e., domestic abuse, child abuse & neglect).

Algebra I - Mathematics part of the California Standards Test given to students enrolled in Algebra I.

Algebra II - Mathematics part of the California Standards Test given to students enrolled in Algebra II.

Alzheimer’s - Usually progressive deterioration of intellectual functions such as memory. A specific form of Dementia.

API - Academic Performance Index

Arrestees - Individuals arrested for crimes reported to the police department.

Arson - The intentional or malicious act of setting fire to a structure, other property, or wild land areas.

Asians - Non-Latino individual classified as Asian (includes Filipinos).

Assault - The intentional, immediate physical contact with another person without their consent.

Atlantic Avenue Corridor - The areas making up the ReThinking Greater Long Beach’s Atlantic Avenue Corridor project.

Average BMI - Average Body Mass Index score – the lower the better.

Average Family Income - Average annual income of all members of a family unit.

Average Household Income - Average annual income of all members of a housing unit.

Average Per capita Income - Average annual income per individual.

Average Public Assistance - Average amount received per year for individuals receiving public assistance.

Average Size - Average number of individuals within a housing unit.

Average Yr. In District - Average number of years the employee has been teaching in the LBUSD.

Average Yr. Teaching - Average number of years employees have been teaching in any school district.

B. Pov. – Income below the U.S. Poverty line.
BA - Individuals holding a Bachelor’s degree but have not obtained a Master’s degree.

BA or Higher – Four-year college degree or graduate degree.

Battery - Contact by one or more persons with another in a manner that is likely to cause bodily harm.

Biology/Life Science - Science part of the California Standards Test given to students enrolled in Biology or Life Science courses.

Births – Women between 15 and 50 who gave birth during the past 12 months.

BMI - Body Mass Index.

Breast - Breast Cancer

Building Healthy Communities - The areas making up the California Endowment’s “Building Healthy Communities” project in Long Beach.

Burglary - Breaking or entering into a property, without the consent of the owner, for the purpose of taking something of value.

CAHSEE - California High School Exit Exam

CAHSEE ELA - English Language Arts part of the California High School Exit Exam.

CAHSEE Math - Mathematics part of the California High School Exit Exam.

Calf. High School Exit Exam - The standardized test a student must pass prior to receiving a high school diploma in the State of California.

California Standards Test - California Standards Test given to all public school students enrolled in grades 2 through 11 in the State of California as part of the state’s Standardized Testing and Reporting (STAR).

Cancer (Neoplasm) - Cancer (medical term: malignant neoplasm) is a class of diseases in which a group of cells display uncontrolled growth.

Cause of Death - Cause of death reported on the death certificate.

Cerebrovascular (Strokes) - Relating to or involving the blood vessels that supply the brain. Most commonly referred to as a “stroke.”

Certified Staff - Individual who have met the California Certified Teaching requirements.

Chemistry - Science part of the California Standards Test given to students enrolled in Chemistry courses.

Civilian Labor Force – Population 16 years of age or older in the labor force and not in the armed forces.

Chronic Pulmonary Disease - Diseases of the lungs in which the airways become narrow. Most common form is Emphysema.

Circulatory System - The circulatory system is made up of the vessels and the muscles that help and control the flow of the blood around the body.

College Degree - Individuals who have completed a 4-year (Bachelor’s) college degree.

Colon - Cancer of the Colon

**Connected Corridor** - The four areas comprising the Phases of the Long Beach Connected Corridor Project.

**CST** - California Standards Test

**CST English Language Arts** - English Language Arts part of the California Standards Test.

**CST Mathematics - All Tests** - Mathematics part of the California Standards Test. Specific test at the middle and high school level depends on the course in which the student is enrolled.

**CST Science - All Tests** - Science part of the California Standards Test. Specific test depends on the course in which the student is enrolled.

**CST Social Science - All Tests** - Social Science (History) part of the California Standards Test. Specific test depends on the course in which the student is enrolled.

**Dementia (Organic)** - Usually progressive deterioration of intellectual functions such as memory resulting from physical illness.

**Density** - Number of individuals in a specific geographic area, expressed as a ratio (e.g., persons/acre).

**Digestive System** - System relating to or aiding in the digestion of food.

**Earth Science** - Science part of the California Standards Test given to students enrolled in Earth Science courses.

**East Side Neighborhoods** - The twelve neighborhoods located on the east side of Long Beach.

**Economic Disadvantaged** - Students who qualify for the Federal Free or Reduced Meal Plan, the determination of which is based on family income and family size.

**Education Attainment** – Level of formal education attainment of adult 25 years or older.

**Education Enrollment** - Number of students enrolled in November.

**Embezzlement** - A kind of financial fraud performed in a manner that is premeditated, systematic or methodical, with the explicit intent to conceal the activity from other individuals.

**Employed** – Percent of civilian labor force employed.

**Endocrine/Metabolic (Diabetes)** - The endocrine system is a system of glands, each of which secretes a type of hormone directly into the bloodstream to regulate the body. Most common is Diabetes.

**Eng. Lang. Arts** - English Language Arts part of either the California Standards Test or the California High School Exit Exam.

**Eng. Lang. Learner** - Students with a primary language other than English who are not proficient in the English Language.

**English Less than Very Well** – Individual with a primary language other than English who speaks English Less than Very Well.

**English Not Well** - Individual with a primary language other than English who speaks English not well.

**English Not at All** - Individual with a primary language other than English who does not speak English.

**English Only** - Individuals with English as their primary or only language.

**English Very Well** – Individual with a primary language other than English who speaks English Very Well.

**English Well** - Individual with a primary language other than English who speaks English Well.

**External Causes** - External causes of death, such as accidents, homicide, suicide, etc.
Families - Related people living in the same housing unit, usually parent and children.
Female no Husband - Families with female householder with no husband Present.
FEP - Fluent English Proficient
Fluent Eng. Proficient - Students with a primary language other than English who have been classified as Fluent English Proficient.
Foreign Born – Individuals born outside of the United States.
Forgery - The process of making or having made or adapted statistics or documents with the intent to deceive.
Fraud - The intentional deception made for personal gain or to damage another individual.
FT – Full time employed.
G.A.T.E. - Students enrolled in the “Gifted and Talented Education” program.
G.T. Auto - The stealing or attempt at stealing a motor vehicle.
Gen. Math Grade 8 - Mathematics part of the California Standards Test given to students enrolled in non-Algebra 8th grade mathematics.
Genitourinary System - The organ system of the reproductive organs and the urinary system.
Geometry - Mathematics part of the California Standards Test given to students enrolled in Geometry.
Grad. With a-g - Percentage of high school graduates who have completed the courses necessary to apply to campuses in the University of California or California State University systems.
Grade 5 Science - Science part of the California Standards Test given to students enrolled in 5th Grade.
Graduate Work - Individuals who have completed a graduate (Master’s or above) college degree.
Grandparents Responsible – Grandparents living with grandchild and responsible for grandchild.
Grandparents Not Responsible – Grandparents living with grandchild, but not responsible for the grandchild.
Heart - Failure of the heart in pumping blood.
High 20% - Highest 20% of census tracts in terms of Socio-Economic or Women and Children Index scores.
High School Graduates - Individuals who have a high school diploma or GED (General Education Development) certificate and have not attended college.
High School Math - Mathematics part of the California Standards Test given to students enrolled in general high school mathematics classes.
HIV - Human immunodeficiency virus (HIV) is a disease that causes acquired immunodeficiency syndrome (AIDS).
Households - People living in the same housing unit.
Households on Public Assist. - Number of households where one or more persons received public assistance during the previous year.
Hypertensive - Arterial disease accompanied by high blood pressure.
Immigrants - Born outside of the United States to non-U.S. citizens.
Incidents - Crimes reported to the police department.
Infectious & Parasitic Diseases - Infectious diseases, also known as communicable diseases, contagious diseases, or transmissible diseases comprise clinically evident illnesses.

Integrated Math 1 - Mathematics part of the California Standards Test given to students enrolled in Integrated Mathematics 1.

Integrated Math 2 - Mathematics part of the California Standards Test given to students enrolled in Integrated Mathematics 2.

Integrated Math 3 - Mathematics part of the California Standards Test given to students enrolled in Integrated Mathematics 3.

Integrated Science 1 - Science part of the California Standards Test given to students enrolled in Integrated Science 1 courses.

Integrated Science 2 - Science part of the California Standards Test given to students enrolled in Integrated Science 2 courses.

Integrated Science 3 - Science part of the California Standards Test given to students enrolled in Integrated Science 3 courses.

Juvenile - Individuals under the age of 18 years.

L.B. Police Dept. Patrol Districts - The three patrol districts of the Long Beach Police Department.

Labor Force – Population 16 years of age or over who are working or seeking work.

Language Fluency - The ability of an individual to speak and/or write the English Language.

Larceny - The wrongful acquisition or carrying away of the property of another person without their consent.

Latinos - Individuals classified as Latino or Hispanic.

Less than H.S. - Individuals having less than a high school degree or GED.

Less than High School – Individuals having less than a formal High School degree or GED.

Life Expectancy - The expected average number of years a person born today is expected to live. Calculated with a formula developed by the National Center for Health Statistics.

Life Expectancy at Age 1 - Average number of years individuals of age 1 are expected to live. Calculated with formula developed by the National Center for Health Statistics.

Liver (Cancer) - Cancer of the Liver

Liver (Digestive) - Cirrhosis of the liver and other non-cancer liver diseases.

Long Beach Planning Districts - The five planning districts defined by the City of Long Beach.

Long Term - Non-tenured certified staff with a long-term contract with the LBUSD.

Low 20% - Lowest 20% of census tracts in terms of Socio-Economic or Women and Children Index scores.

MA or Above - Individuals holding a Master’s or higher college degree.

Male no Wife - Families with male householder with no wife present.

Married Families - Families with both a husband and wife present.

Married – Families where the husband and wife are formally married.
Math 2-7 - Mathematics part of the California Standards Test given to students enrolled in grades 2 through 7.

Mathematics - Mathematics part of either the California Standards Test or the California High School Exit Exam.

Median Age - Half of the population is above and below this age.

Mental & Nervous System - Diseases of the brain or nervous systems.

Middle 20% - Middle 20% of census tracts in terms of Socio-Economic or Women and Children Index scores.

Mid. High 20% - Second highest 20% of census tracts in terms of Socio-Economic or Women and Children Index scores.

Mid. Low 20% - Second lowest 20% of census tracts in terms of Socio-Economic or Women and Children Index scores.

Murder - A capital offense (homicide) by one or more persons who take the life of another person or persons, and which is punishable by death or life imprisonment.

Narcotics - The unlawful possession or sale of prescription or certain non-prescription drugs.

Native Born - Born within the United States or to U.S. citizens.

Naturalized - Immigrants who have become U.S. citizens.

Never Married – Individuals who have never been married.
